Mostafa Bahaa Eldin

FULL-STACK WEB DEVELOPER

Full-Stack Developer with production experience delivering end-to-end web applications using **Next.js, Django, PostgreSQL, and React.js**. Completed the ITI Full-Stack Python intensive program and shipped a live civic services portal — handling frontend, backend API, database design, and deployment solo. Comfortable across the full stack; focused on clean, maintainable code and real user impact.

FEATURED PROJECTS

Hazem El-Rayan — Parliamentary Services Portal

↗ hazem-elrayan.com

Production civic portal for an Egyptian Parliament member. Citizens submit service requests, file complaints, and track case status in real time. Includes a full admin dashboard for case management, a public news feed, and Arabic-first RTL UI. Built and deployed solo, end-to-end.

Next.js · Django · PostgreSQL · REST API · RTL / Arabic · Admin Dashboard · Full-Stack

Movie Discovery App

↗ Live

Browse and search movies via TMDB API with session-based authentication, dark mode toggle, and multi-language support.

React.js · TMDB API · Bootstrap · i18n

E-Commerce Store

↗ Live

Product catalog with cart, checkout flow, and session authentication. Fully responsive.

React.js · Bootstrap · JavaScript ES6+

SKILLS

FRONTEND

React.js · Next.js · JavaScript ES6+ · HTML5 / CSS3 · Bootstrap

BACKEND

Django · Python · REST API · Odoo

DATABASE

PostgreSQL · MySQL · SQLite

TOOLS & DEVOPS

Git / GitHub · Docker · Linux CLI · Bash · Apache
